

Transglutaminase Newsletter April 2008

Editorial comment

Dear researchers. Since May 2004 you are used to receive our [Transglutaminase Newsletter](#) with information on events as well as new products in the field of Transglutaminase.

In October 2007 the Transglutaminase products have been transferred to the new company [Zedira](#), which focuses on Transglutaminase and Celiac Disease. [Zedira](#) is a spin-off from N-Zyme BioTec, therefore the people behind the products stay the same, guaranteeing the high quality of our products you are used to.

Should you have any questions about our products, please do not hesitate to contact us:
contact@zedira.com

New human Transglutaminases

| | | |
|--|--------|---------|
| T022 Recombinant human tissue Transglutaminase (TG2, insect cells) | 250 µg | 350 € |
| | 1 mg | 1.050 € |
| T024 Recombinant human epidermal Transglutaminase (TG3, insect cells) | 200 µg | 350 € |
| T011 Recombinant human Transglutaminase 7 (TG7, <i>E. coli</i>) | 250 µg | 350 € |
| T027 Recombinant human coagulation Factor XIII (rhFXIII, insect cells) | 200 µg | 350 € |

For detailed information concerning our products please refer to our web site (www.zedira.com).

We are continuously enlarging our product portfolio in order to fulfill researcher's requirements in the field of Transglutaminase R&D. For special requirements please contact us:
contact@zedira.com.
